

Product datasheet

Rubber buffer PBGP

The PBGP products are standard low-cost high-quality rubber buffers with a high resistance to wear and tear. All rubber elements are made of high-quality new rubber material ensuring a long service life.

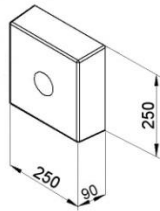

PBGP 400x80x70

Rubber element (thickness 70 mm) with a high resistance to wear and tear, suited for smaller impact forces.

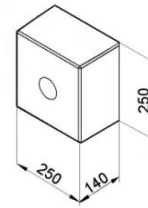

PBGP 250x250x90

Rubber element (thickness 90 mm) with a high resistance for normal impact forces.

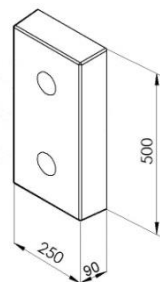

PBGP 250x250x140

Rubber element (thickness 140 mm) with a high resistance for normal impact forces.

PBGP 500x250x90

Rubber element (thickness 90 mm) for extremely high impact forces.

PBGP 500x250x140

Rubber element (thickness 140 mm) for extremely high impact forces.
