## Mobile dock plate PHFB

The PHFB mobile dock plate is designed to bridge differences in height of up to about 145 mm. The dock plate is made of a durable aluminium alloy with an anti-slip layer; thanks to its light weight it can be used for a wide range of applications. This mobile dock plate can also be delivered with rolls facilitating transport between varying loading areas.

Load capacity for all sizes: 40 kN.

### PHFB

### PHFB with wheels

Nominal length NL	Nominal width NB	Height difference H	
		min.	max.
625	1250, 1500	-55	100
750	1250, 1500	-70	115
1000	1250, 1500	-100	145
All dimensions in mm.
